Remember that core courses must be made up or a student will remain in the current grade level the next year. Please see the Academic Excellence Policy in our Handbook for complete details.

COURSE SELECTIONS FOR 2022-2023

Course selections have taken place this year. This is an online function via the PowerSchool portal for returning students. Access to the course selection is through PowerSchool via the student or parent accounts. Students and/or parents will have until May 31 to make repeated changes. Many students decided to wait and did not actually select courses during the designated times. Please discuss selections with your student and get his/her choices entered. These selections are what the coming year's class schedule is built on each summer. [Click Here](#)

SUMMER SCHOOL @CA 2022

Algebra I will be taught this summer by Mr. Sinigaglio. May 25-July 1, 8 am to 12:10pm each weekday excluding Memorial Day. Cost is \$615.00. A non-refundable deposit of \$200 is due by May 11, 2022. Each student interested in taking this class must have a teacher recommendation sent to Mr. Sinigaglio. Recommendations should come from the current eighth grade math teacher and can be emailed or phoned in - bsinigaglio@collegedaleacademy.com or 303.915.1515. Please note this is an accelerated class primarily intended for rising freshmen.

MATH PATHWAYS—ACCELERATING IN MATH

Do you foresee your student needing AP Calculus for his/her desired college degree/career? If so, these are the Pathways to take AP Calculus at Collegedale Academy:

- 1) Take Algebra I in middle school (8th grade).
- 2) With teacher recommendations, take Algebra II after Algebra I and Geometry during summer school at CA. See "Summer School @CA" item above.
- 3) Take an online math during the summer via Edgenuity/CA's Alliance program. Students must have proof of completion (transcripts) of online courses taken before beginning the next level course. Teacher recommendations required along with CA Leadership Team approval.

PREREQUISITES: Pre-Calculus and AP Statistics require a math score of 19 on the ACT, B grades the previous two semesters in Algebra II and teacher recommendation. AP Calculus requires B grades the previous two semesters in Pre-Calculus. Sophomores ready for Pre-Calculus must meet all requirements except the ACT score.

Since Tennessee State Board of Education requires students to take a math course every year during their four years in high school, this pathway to Calculus will mandate the student to take Pre-calculus, even if plans to take Calculus are replaced with Statistics. *The Math Department generally does not encourage students to accelerate more than once.*
