#### Georgia Cumberland Conference Recommended Policy Regarding Students with Allergies:

It is the goal of schools in the Georgia-Cumberland Conference to provide a safe environment for all students. However, it is not feasible to guarantee that students with allergies will not be exposed to potential allergens within the school environment. This includes food allergens such as wheat, soybeans, dairy products, and peanuts. Therefore, it becomes the responsibility of the parents and students with allergies to assist the school in developing procedures to minimize potential exposure and to determine the appropriate course of action should an allergic reaction take place. The school faculty will attempt to assist the student and parents in following the plan as outlined to minimize potential exposure to allergens. However, parents and students must recognize that the school cannot control every scenario that might result in such an exposure. Thus, it is extremely important to have procedures in place in the event of an allergic reaction.
